DETAILED ACTION

Response to Amendment

This Office Action is in reply to amendment filed October 9, 2009. After entry of this amendment, claims 1-19 and 28 are currently pending in this application.

Claim Objections

Claim 3 is objected to because of the following informalities: Applicant has used double bracketing to delete a term in the third line of claim 3 (i.e. annulled); however, double bracketing cannot be used to delete more than five characters. Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claim 3 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Claim 3, partly, recites that the natural straw being at least partly "removed"; however, specification lacks support for this claimed language. Applicants have

replaced "annulled" with "removed"; however, no where in the specification any indication or explanation is found that would reflect annulled and removed have the same meaning.

Allowable Subject Matter

Claims 1-2, 4-19 and 28 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art do not disclose or suggest a composition comprising at least one binding material and at least one filler material wherein the at least one filler material comprises natural straw and the natural straw is at least partly disintegrated.

It should be noted that in allowing the above claims, the Examiner has relied on Applicant's definition on "disintegration" which has been provided by Applicant in page 5, line 27 to page 6, line 11, of the specification which, also, has been pointed out and reiterated in Applicant's arguments filed 10/9/2009 in page 6. The cited section of the specification, partly, states that the term "disintegration" has a specific meaning which is that the straw fibers which make up the stalks together with natural binding substances are extracted from this natural structure of the straw stalks.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

Applicant's arguments, see pages 6-8, filed 10/9/2009, with respect to "disintegration" have been fully considered and are persuasive. The rejection of claims 1-2, 4-19 and 28 has been withdrawn.

However, claim 3 is still rejected under 112-first paragraph as detailed above.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
